Added Notes section to profile page

← Add “Notes” under “Observations”

- List 3 most recent notes.
- Arrows on individual notes go to notes page and scroll directly to specific note with replies expanded.
- “View all” goes to Notes tab.

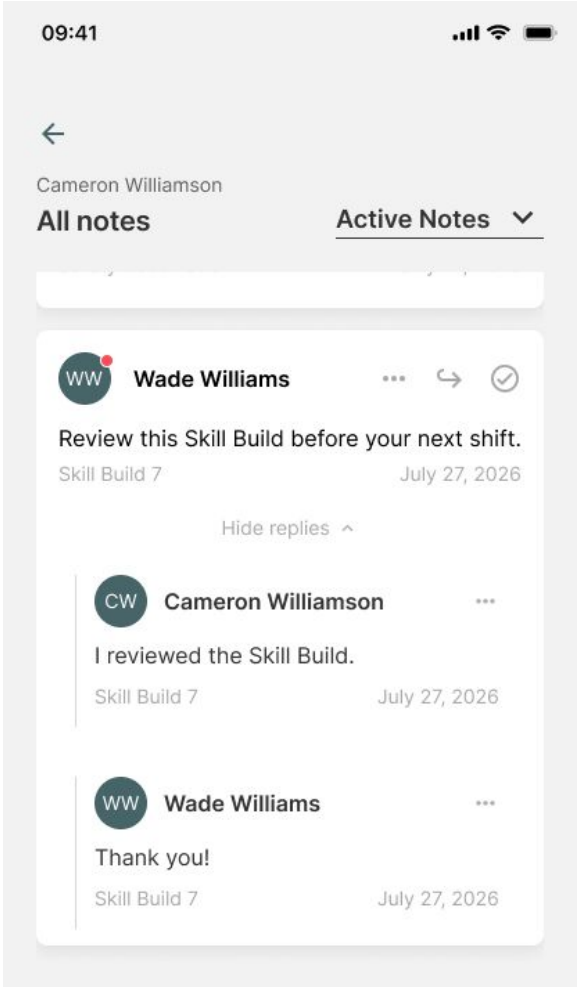

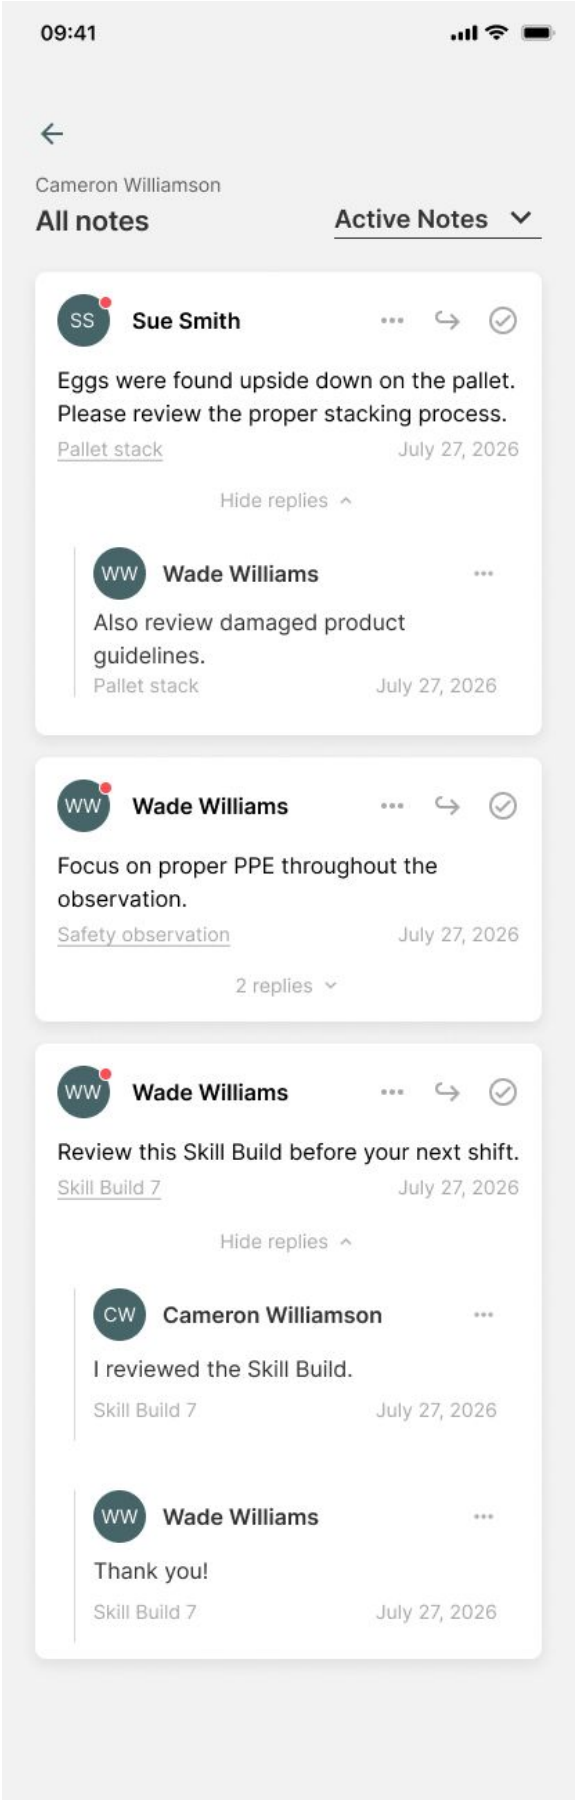

← Toggle dropdown between active and resolved notes.

← Source link leads to observation or skill build

- Full notes page displays all notes for a single associate
- Toggle between active notes and past resolved notes
- Notes can be resolved and/or replied to
- All replies start collapsed to minimize space.

← Add “Notes” under “Observations”

- List 3 most recent notes.
- Arrows on individual notes go to notes page and scroll directly to specific note with replies expanded.
- “View all” goes to Notes tab.

## Notes page

← Replies are show when expanded

- can be hidden and shown

← Specific note automatically scrolled to and expanded when arrow is selected in profile page.

- All notes are still visible when scrolling.
