Summary: Creative Technology and Design student at the University of Colorado Boulder with a strong foundation in computer science and a passion for user-centered design, programming, and digital media. Skilled in crafting intuitive, visually compelling experiences that blend creativity with technical problem-solving. Adept at prototyping, front-end development, and designing interactive digital products. Driven, adaptable, and excited to bring innovative, user-focused solutions to real-world challenges.

Sample Projects: Enclosures and Circuit Design, GPS Flight Tracker, Endurance Racing Team Website, Website development utilizing API coding

Designed and built electronic enclosures and circuit systems for custom hardware applications.

Developed a GPS-based flight tracking system, including hardware integration and data visualization.

Created a sample Endurance Racing Team website, including usability, navigation, and visual design.

Developed web applications using APIs, integrating external data sources to build dynamic, interactive features.

Work Experience

H-E-B

Personal Shopper - May 2023 - Present (Summer and Holidays)

- Accurately shop and select items for customer orders, ensuring quality, freshness, and correct substitutions when needed.
- Communicate with customers through the H-E-B app or in-store systems regarding order updates, substitutions, or product availability.
- Efficiently organize and stage completed orders for pickup or delivery.
- Maintain product knowledge to make informed substitution choices and answer customer questions.
- Handle perishable items properly, following food safety and temperature guidelines.
- Meet productivity and accuracy targets while working in a fast-paced environment.
- Assist with stocking, organizing, and maintaining a clean work area.
- Provide friendly, helpful interactions with customers during pickup.
- Collaborate with teammates and follow H-E-B's service and safety standards.

Tillys

Store Associate - Dec 2023 - May 2023

- Order Fulfillment - Receive orders online. Find items in the store to complete the orders. Package orders and prepare them to be shipped.
- Cashier - Work with customers to ring up their merchandise and process their financial transactions using cash, credit cards, gift cards and Apple Pay. Pack and bag merchandise for the customer.
- Receiving - process new shipments of merchandise, tag and display in store.
- Greeter - Greet customers as they walk into the store and advise them of sales and special promotions.
- Dressing Room - Greet customers and locate a fitting room for them. Collect unwanted items and prepare for display.

Education

Bachelor of Science in Creative Technology and Design - University of Colorado Boulder

Minor Computer Science

August 2024 - May 2028

Languages

- C++
- JavaScript/HTML/CSS
- Python
- Java

Programs

- Adobe suite - Photoshop, InDesign, Premier, After Effects, Lightroom
- 3D modeling - Rhino 3d, Maya, Blender
- Coding - Visual Studio Code, GitHub
